EXECUTIVE SUMMARY

"To serve the citizens of South Carolina by providing the most transparent, accountable and efficient banking, investment and financial management services for South Carolina State Government. Our commitment is to safeguard our State's financial resources and to maximize return on our State's investments." –Mission of the South Carolina Treasurer's Office

The continuation of the this long-tepid economy challenges each and every one of us, but the citizens of South Carolina can rest assured that their Office of State Treasurer is operating in the most transparent, accountable and efficient way possible. State Treasurer Curtis M. Loftis, Jr. is now serving his third full year in office and has worked tirelessly to reform the Office, enhance services and create an environment of openness in government while bringing the Office into the 21st century as it conducts business on behalf of the State.

Treasurer Loftis was elected in November 2010 and took his oath of office on January 13th, 2011. His administration is in place and the first three years have been marked with many accomplishments. This document serves as a review of the Office for the previous fiscal year.

The Office of State Treasurer is responsible for the investment, cash management, and safekeeping of the State's general and restricted funds, as well as a portion of the assets of the South Carolina Retirement Systems. The Office also provides fiscal management services, including receipt and disbursement of all funds. The Office coordinates all banking services, manages the State's debt, administers both the Unclaimed Property and College Savings Programs and works and communicates regularly with the three major bond rating firms to maintain high credit ratings that keep the State's borrowing cost low.

The Office continues to operate with five major program areas: Treasury Management; Debt Management; Investments; Unclaimed Property; and College Savings Plans.

Over the past fiscal year, a number of new faces have joined the Office. All of the new faces have extensive financial, accounting and information technology skills. Three of the new hires are Certified Public Accountants; the new Unclaimed Property Audit Manager, Treasury Management Program Manager and Treasury Management Fiscal Analyst. Additionally, two Unclaimed Property Auditors are sitting for the CPA examination.

Some of the major accomplishments and challenges of the Office are summarized below:

Unclaimed Property. The Unclaimed Property Program Division processed over 33,000 claims totaling more than \$15.5 million paid to rightful owners. The total claims processed increased by 82% and the dollars paid increased by 65% over the previous fiscal year. As a result of staff outreach efforts, the number of holders reporting unclaimed property increased by 12% and the number of accounts reported by holders increased 48% totaling \$48.3 million in funds belonging to claimants. Also, 185,000 stock shares were sold which represented an increase of 180% over FY 11-12.

The Program made enhancements to the website that making it easier for individuals to search the database and obtain claim forms and also for holder companies to report unclaimed funds to the STO. The Division's audit staff has assisted holder companies with compliance matters, reporting requirements and remittance processes. The audit staff consists of three FTE's, one CPA and two auditors that are in the process of attaining their certification. Both physical and cyber security measures have been implemented and are continuously monitored by the STO Information Technology staff.

To promote public awareness, Treasurer Loftis held three Hometown Tours, participated in a phone bank on a local news station, utilized social media and distributed press releases during the fiscal year. The promotional efforts have proven successful as the Division has seen a significant increase in funds remitted, approved claims, and total payments made to owners.

Investment Management. The Investment Management Division manages, according to SC Code 11-9-660, approximately \$12 billion in assets for both the State of South Carolina and local governments. The current custodian, BNY Mellon, acts as a holder and record keeper of these funds. BNY Mellon was awarded the contract resulting from the bid for custodial services and contract negotiations are close to being finalized.

The Investment Management Division continues to utilize the services of its external investment advisor Jamison, Eaton, & Wood Inc., whose job is to advise the Division on investment strategy in order to optimize potential earnings on all of the investments that the State of South Carolina holds.

Over the last fiscal year, the general funds investment portfolio outperformed the benchmarks of 90-day Treasury Bills and Federal Funds by .98% and .95% respectively. The Local Government Investment Pool (LGIP) continued to produce above market returns for its participants, earning an average rate of .24% compared to the average 90-day T-Bill benchmark rate of .04%. The BidSC Program quarterly CD auctions generated increased earnings of \$38,526 for the State.

The main hurdles for the Investment Management Division throughout the year have been maintaining yield throughout this historically low interest rate environment and volatility in the market.

The Investment Management Division also played an integral role in the development of the Office's Annual Investment Plan ("AIP"). The Office's AIP was formed as a means to routinely evaluate investment objectives, practices, strategy, direction, and allocation. All changes to the

Office's AIP will be evaluated on a quarterly basis and presented to the Treasurer for his approval at the Treasurer's Quarterly Investment Meeting.

Debt Management. The Debt Management Division issued more than \$1.029 billion in new and refinanced debt, and achieved \$164 million in debt service savings for the State, its institutions and authorities. The division continued work throughout the year to validate and improve its disclosure documents and policies, and worked continuously with the rating services to maintain its high ratings. We successfully maintained the State's stable Aaa rating from Moody's following a brief time on negative outlook during fiscal year 2011-12 incidental to concerns Moody's had expressed over the impact of the U.S. sovereign rating on that of the State.

The challenges for debt management include maintaining the state's high ratings within an uncertain economic and political climate, along with growing sensitivity of the credit rating agencies to debt-like liabilities such as pensions, other post-employment benefits, and unemployment benefits, none of which are under management of the Debt Management division.

Treasury Management. The Treasury Management Division completed the work necessary to transition "contingent" check processing to the SCEIS and went live on October 19, 2012. Contingent checks are issued daily to pay a wide variety of routine costs incurred in state government. The STO also completed the transition of income tax refunds and public assistance checks and is working on the transition of banking to SCEIS. This is the next of a number of major steps in transitioning to SCEIS for both accounting and treasury management, and this phase is expected to be completed soon.

Executive management of the State Treasurer's Office is continuing to work with the Division in development of a succession plan that addresses impending retirement of several key positions, including the Division Director. The Division has hired three new accountants during fiscal year 2013, in which two are CPA's and one is an attorney. The Office continues to seek candidates with strong accounting and banking skills, preferably holding a CPA license. Certain banking functions, including deposits and the mailroom continued to be organizationally realigned during the fiscal year. This realignment has promoted more timely performance of routine duties.

Future Scholar College Savings Program. The College Savings Plans Division successfully completed a one and a half year long RFP and contract re-bid process for program management services for the state's college savings and tuition prepayment programs. Columbia Management was awarded the contract. The contract is unique among the college savings industry as it was one of the first to combine program management services for both college savings plan and tuition prepayment programs under one contract. After reviewing the services for the savings plan and the tuition prepayment program, the STO chose to combine services under one program manager as a way to streamline services, reduce costs and increase efficiencies. This decision has received recognition within the industry and many states are interested in pursuing similar services when they rebid their contracts.

Future Scholar also launched new Direct and Advisor products with lower fees, lower investment minimums and new and expanded investment products. The public responded positively and

Future Scholar saw record sales increases for December 2012. For year-end December 2012, Future Scholar monthly sales figures showed a 48% increase year-over-year, including a 64% increase in the direct-sold plan sales.

In conjunction with National 529 Day, Future Scholar launched a new grant program funded by Columbia Management called the Future Scholar 529 Day PalmettoBaby Grant Program. All babies born in South Carolina on 5/29/13 were awarded the opportunity to receive a \$529 grant into a Future Scholar account if the baby born had a 529 account opened in his or her name and proof of birth was provided. The STO partnered with South Carolina hospitals to distribute materials to families of all babies born on 5/29/13. The STO also marketed the program throughout the state.

During FY 12-13, the STO and the College Savings Plans Division implemented a schedule for regular quarterly investment meetings. Prior to FY 12-13 investment meetings were held but not on a regular quarterly basis. During the quarterly investment meetings, representatives from the STO, program management team and outside consultants attend meetings held at the STO to review investments and program initiatives in the college savings plans and the tuition prepayment program.

In FY 13-14, the Division will continue to provide a top quality 529 College Savings Plan Investment Program to the residents of South Carolina and other States who can benefit from the advantages of investing in the Future Scholar Plan. The Division anticipates the total number of accounts will exceed 100,000 for the first time. The Treasurer is proud to continue operating one of the nation's highest rated 529 College Savings Programs **without the use of any state funds.**

Administration and Information Technology. While maintaining daily operational activities, the Administrative Division staff monitored and provided budgetary and legislative information reports, increased budgetary authorization in order to meet Office mission and goals processed personnel actions and employee benefits for new hires and separations, and reviewed and revised Office contracts while preparing new solicitations and requests for proposals, updated records retention schedules and upgraded office space, equipment and furniture. Additionally, the Information Technology staff coordinated several projects to transition the processing of contingent, public aid and income tax payments from STARS to SCEIS, and issued a request for proposals (RFP) selecting Hewlett Packard Enterprise Services (HPES) to perform a comprehensive IT Security Audit. Temporary staff has been hired to assist in meeting the statewide goal of retiring STARS as quickly as possible, and in replacing the aging Debt and Investment Management Systems in the STO.

HPES conducted a Risk Assessment, Technical Assessment and Physical Assessment remotely and onsite in 2013 on the STO's major applications and general support systems. The audit evaluated the threats, vulnerabilities, and risks associated with security controls specified in the National Institute of Standards and Technology Special Publication 800-53. The Technical Assessment looked for vulnerabilities based on criticality of impact of exploitation by unauthorized third parties, and these vulnerabilities were validated by HPES through the use of penetration testing and social engineering.

In addition, the STO hired an IT Security Consultant to assist in developing security policies, to develop a comprehensive security training program.

By statute, the STO is responsible for conducting and managing the investment and debt service functions for all state government agencies. The existing Debt and Investment Systems used for these purposes were developed in the 1980's. These Systems use mainframe technologies, and are nearly thirty years old. These Systems are integrated with STARS, the STO's Financial Management System, as well as several other similar systems. These systems are scheduled to be replaced by SCEIS over the next year.

The STO has created a project to convert the existing Debt and Investment Systems to SCEIS where appropriate functionality exist in SCEIS and, if no corresponding functionality, to re-write these Systems using more modern technologies and software that allows for integration with workflow, document management and access via the Internet. Authorization was received for the replacement of these Systems in the 2013–2014 budget, and the current timeline for implementing the new Debt and Investment Systems within the STO is 18 to 24 months.

Treasurer Loftis has transformed the STO into one of the most transparent and accountable agencies in the United States. Under his leadership and vision, the Office has achieved numerous successes and improvements, and he envisions building on those successes for the future. This accountability report serves as a key benchmark upon which the Office measures annual progress and success.

ORGANIZATIONAL PROFILE

II.1. – II.2. Below are the basic services provided by the Treasurer's Office along with the customers who utilize the services.

Major Services	Key Customers
Treasury Management Receipt and disbursement of all funds for all agencies and State institutions	State Agencies State Employees and Retirees State's Vendors Taxpayers Local Governments Recipients of other State disbursements
Investments All State funds, the Local Government Investment Pool, and the South Carolina Retirement System Funds	State Agencies and Institutions Local Governments and School Districts The South Carolina Retirement Systems
Debt Management General obligation, revenue, and special debt issues	State Agencies, Institutions and Authorities Holders of the State's General Obligation and Revenue Bonds
Unclaimed Property	Rightful Owners of Unclaimed Property Holders of Unclaimed Property
College Savings Plans	Contributors to and Beneficiaries of College Savings Plans Institutions of Higher Learning

II.3. Key stakeholders for the State Treasurer's Office include not only our direct customers but also the South Carolina General Assembly, the State's General Fund, county and local government officials as well as each and every citizen of the State.

II.4. Key suppliers and partners for the State Treasurer's Office include other State agencies, banks and other financial service providers, bond attorneys, financial advisors, investment banking firms and custodial banks, the program manager of both College Savings Plans, vendors of services and supplies, technology vendors, software providers and partners, holders of unclaimed property, and internet service providers utilized by Office staff.

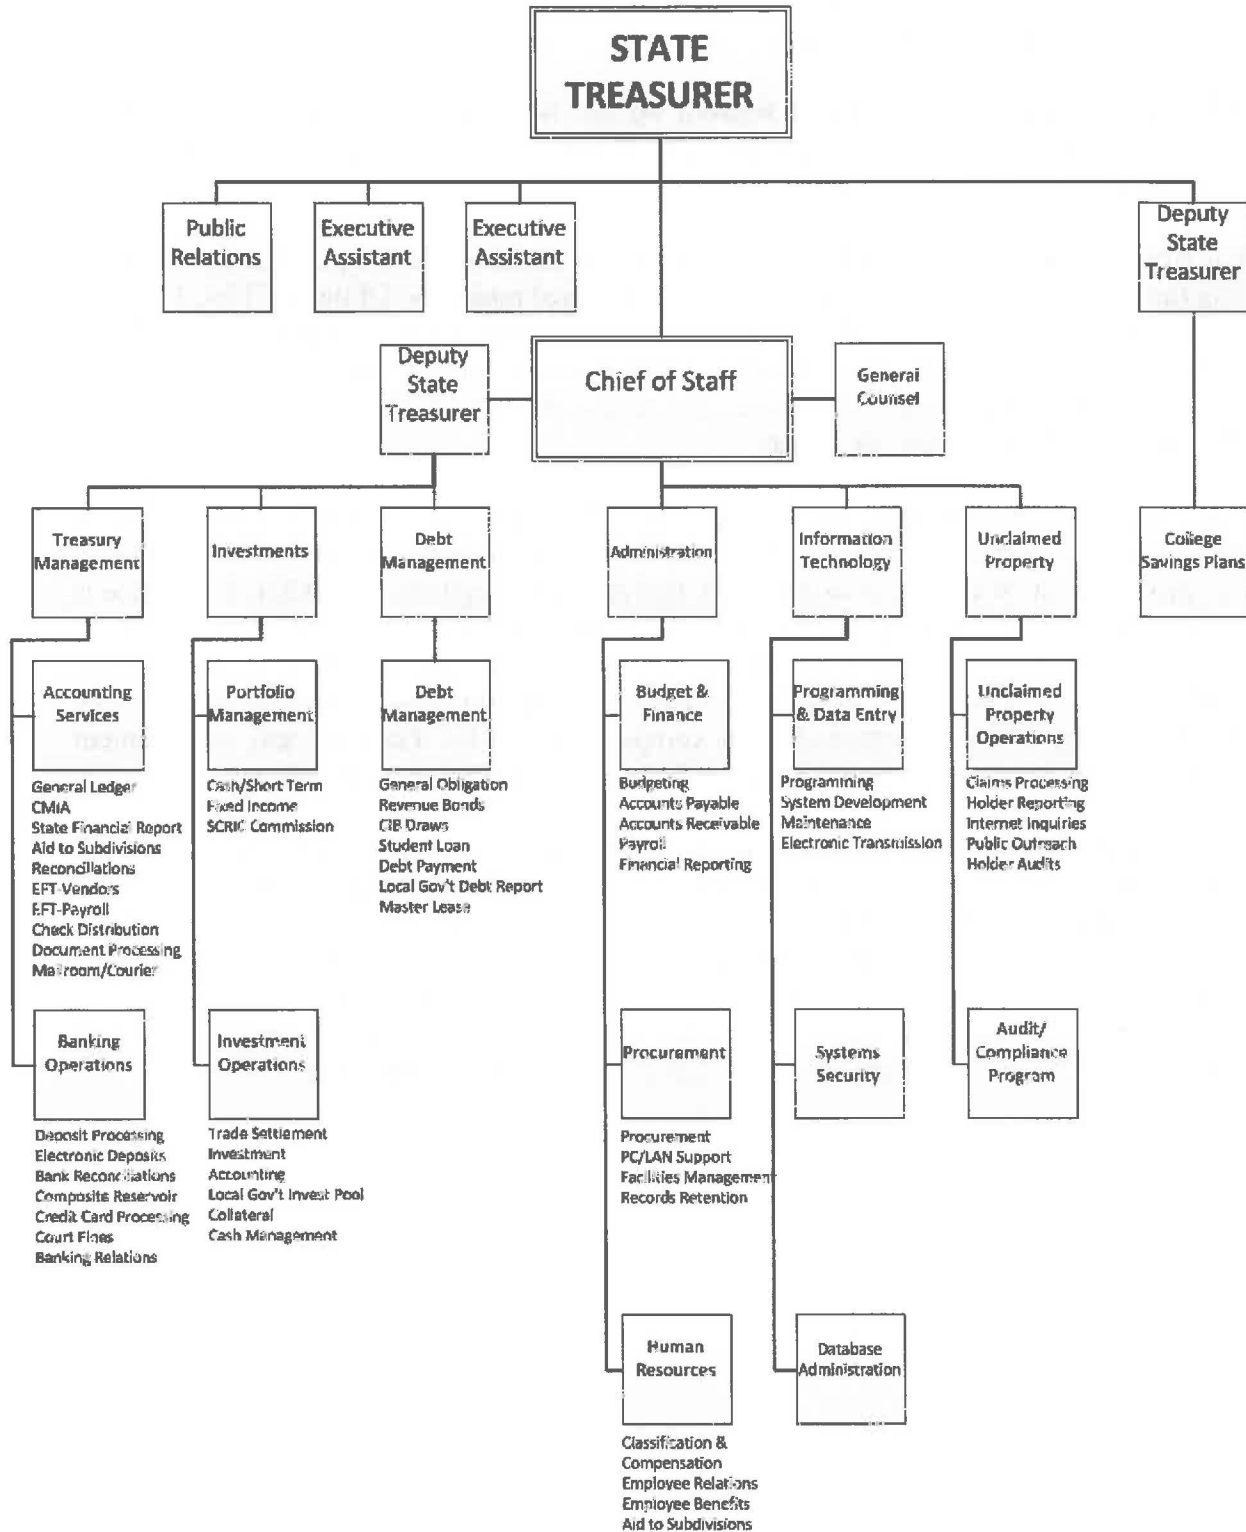

II.5. The State Treasurer's Office is located on the first and second floors of the Wade Hampton Office Building. The address is 1200 Senate Street, Columbia SC 29201. The telephone contact number is 803-734-2101.

II.6. The State Treasurer's Office has a total of 70 authorized full-time equivalents (FTEs) including the State Treasurer, 3 unclassified and 66 classified positions. Of those FTEs, 37 are State funded and 33 are other funded. At fiscal year end, the Office was operating with 86.2% of our authorized FTEs or 60.35 positions filled and 9.65 positions vacant. The Office employed 7 temporary employees over the past fiscal year. The Office utilized 14 interns that worked a total of 1,938 hours over the previous fiscal year.

II.7. The regulatory environment under which the Office operates is much the same as that of other State agencies, particularly with respect to Occupational Safety and Health Administration (OSHA), procurement (with certain exceptions), and personnel regulations (OHR). The Office is also subject to certain banking regulations; National Electronic Payment Association in connection with processing of financial transactions; and the Municipal Securities Rulemaking Board (MSRB) in connection with debt disclosure, other financing transactions, and the College Savings Plans. The Office is responsible for compliance with the Federal Cash Management Improvement Act (CMIA) and Internal Revenue Service (IRS) arbitrage requirements.

II.8. Performance improvement systems for the State Treasurer's Office include trend analyses as well as measurement of its results against peers and industry benchmarks as noted in Section 7 of this accountability report. The STO works to ensure that business is being done in the most efficient, transparent and accountable way possible. That work ethic is shared with and requested of our vendors and other business partners. The annual Employee Performance Management System (EPMS) discussed under the Human Resources section provides management a way to tie each employee's job responsibilities to the goals of the Office.

II.9. The Organizational Chart that follows indicates the primary functions of each Division and where they are located within the organization.

II.10. The Expenditures/Appropriations Chart that follows outlines the major spending categories of the budget.

Accountability Report Appropriations/Expenditures Chart

Remainder of Expenditures:	State: 876,659.00 Federal: 0.00 Other: 0.00 Total: 876,659.00 % of Total Budget: 8%	State: 868,795.00 Federal: 0.00 Other: 0.00 Total: 868,795.00 % of Total Budget: 8%
Support Systems of the office include Administration, Information Technology, Legislative and Constituent Services.		

MALCOLM BALDRIGE AWARD CRITERIA**III.1 – Senior Leadership, Governance, And Social Responsibility**

The State Treasurer, Chief of Staff, General Counsel, two Deputy State Treasurers, and the seven Division Directors make up the senior leadership of the State Treasurer's Office. Adherence to a chain of command ensures that working time is spent on the tasks of highest priority.

1.1. How do senior leaders set, deploy and ensure two-way communication throughout the organization and with customers and stakeholders, as appropriate for: (a) short and long term organizational direction and organizational priorities, (b) performance expectations, (c) organizational values, and (d) ethical behavior?

Senior leadership utilizes both individual and group meetings to communicate organizational direction. While senior leadership advocates an adherence to the chain of command set forth in the structure of the Office, they are also very open to listening to and soliciting different opinions and viewpoints in order to arrive at the best possible decisions for the Office. The Treasurer has an open-door policy for all staff and stresses transparency and accountability with all Office functions. Senior leadership follows all state OHR policies and procedures regarding legal and ethical personnel matters. The Chief of Staff engages in "management by walking around" and talking with employees and directors at their work place.

1.2. How do senior leaders establish and promote a focus on customers and other stakeholders?

The Treasurer, Chief of Staff, two Deputy State Treasurers and General Counsel meet formally twice a week to develop and assign tasks as well as measure progress since the previous meeting. The Chief of Staff holds a weekly meeting with senior staff including the Deputy State Treasurers, general counsel and the seven Division heads to discuss short-term and long-term progress on the tasks in progress, as well as to receive updates regarding customer and stakeholder focus and feedback. As a team, they also use this time together to discuss any

problems and challenges, and to explore solutions and opportunities for improvement. The team then relays this information to the other staff members and seeks feedback, and implements assigned tasks.

1.3. How does the organization address the current and potential impact on the public of its programs, services, facilities and operations, including associated risks?

The State Treasurer's Office scope and reach are wide and deep. Senior leadership maintains communication with all of its customers and stakeholders to ensure that each entity is aware of the goals of the Office. The Office's website (www.treasurer.sc.gov) serves as a central resource to assist in public awareness of the Office and provides links to other areas in government. Program managers within Office Divisions provide timely communication of Office policies, procedures and/or risks to customers, stakeholders and vendors, and customer needs drive decisions as to how and when services will be delivered.

1.4. How do senior leaders maintain fiscal, legal, and regulatory accountability?

Senior leadership meets regularly to discuss statutory requirements and the time frames within which the Office is given to produce various mandates. A majority of the services provided by the Office are legislatively mandated and are time sensitive and, as such, have strict deadlines associated with them. Meeting deadlines and ensuring that the Office is compliant with statutory mandates ensures that the highest level of accountability is maintained. Each staff member of the Office is responsible for his or her work product. Senior leadership reinforces personal responsibility as a cornerstone principle of efficiency for the Office.

1.5. What performance measures do senior leaders regularly review to inform them on needed actions?

Senior leadership routinely reviews all feedback received from customers and stakeholders to ensure that the highest levels of satisfaction are delivered by the business operations of the Office. Division heads are required to submit monthly operational and financial accountability

reports to senior leadership in an effort to monitor progress and address needs as they arise. Constant monitoring of deadlines, reports, and other performance requirements drives day-to-day operations.

1.6. How do senior leaders use organizational performance review findings and employee feedback to improve their own leadership effectiveness, the effectiveness of management throughout the organization including the head of the organization, and the governance board/policy making body? How do their personal actions reflect a commitment to organizational values?

Management effectiveness is measured in a number of ways. Internally, the Office has a policy of openness and candidness regarding feedback from all employees. Input is actively sought from management throughout the chain of command and adjustments are made accordingly. Weekly senior staff meetings serve as an opportunity for management to voice concerns, give praise or work out issues that may arise. Management strives to set an exemplary standard for integrity, honor, efficiency and accountability through their work. Senior leadership also integrate themselves with staff by spending time in their work areas and interacting with employees at all levels seeking input and giving feedback.

The Treasurer's work ethic sets the example to STO employees and state government as a whole. Treasurer Loftis is routinely the first person to arrive in the morning and the last person to leave. The Treasurer conducts himself with the highest level of professionalism and integrity as is consistent with the values and expectations set for the Office.

1.7. How do senior leaders promote and personally participate in succession planning and the development of future organizational leaders?

Historically, the Office has benefited from an employee turnover rate that is lower than the State average. Modernized positions have been enhanced as facilitated by retirement, restructuring and reduction.

The Office is actively engaged in employee training and succession planning as key employees who possess institutional knowledge approach retirement. The Chief of Staff and the Treasurer are made aware of any needs regarding employees retiring and take the necessary action to ensure a properly trained and able workforce.

1.8. How do senior leaders create an environment for performance improvement and the accomplishment of strategic objectives?

Management at every level is involved in daily activities of the Office. Constant communication with employees, customers and stakeholders allow senior management to monitor the Office and react quickly to needed changes, improvements and recognize opportunities for success. The Treasurer is involved and provides input to ensure that the strategic objectives of the Office are not only met but exceeded. In order to meet growing customer needs with increasingly limited resources, managers must continually look for ways to better utilize automation for processing, verifying, and reporting information. Motivation is often fostered through the leadership of the Office by example and through employee recognition.

1.9. How do senior leaders create an environment for organizational and workforce learning?

Senior leadership encourages cross-training and employee assistance at every level within the Office. All managers are encouraged to include their subordinates in the decision making processes. Management also encourages employees to seek training and counsel whenever necessary as provided by the State or non-State entities.

1.10. How do senior leaders engage, empower, and motivate the entire workforce throughout the organization? How do senior leaders take an active role in reward and recognition processes to reinforce high performance throughout the organization?

Recognition of staff for their accomplishments is both an honor and an important responsibility of management. Division Directors and Deputy State Treasurers routinely recognize staff for their hard work in an ongoing effort to motivate the workforce. Employees are honored with and recognized at the annual Employees' Appreciation Luncheon. The Treasurer often visits with staff during the work day and is always complimentary of their work when speaking in public.

1.11. How do senior leaders actively support and strengthen the communities in which your organization operates? Include how senior leaders determine areas of emphasis for organizational involvement and support, and how senior leaders, the workforce, and the organization contribute to improving these communities.

The Office supports the community through participation in the annual United Way fundraising campaign as well as a Harvest Hope Food Bank food drive. The Office also participates in the American Red Cross blood drive semi-annually. Employees across the Office participate in various charities and civic organizations as well. The Treasurer actively participates in financial literacy outreach. Whether it is speaking to civic groups, schools or community organizations, the Treasurer takes his role as the State's banker and custodian very seriously.

III.2 – Strategic Planning

The priorities of the State Treasurer's Office are:

- **Banking Services**
- **Investment Services**
- **Debt Management**
- **Prudent Financial Management of State Funds**
- **Safeguarding and Maximizing Return on State Funds**

The strategic plan includes items to address actions within the stated mission of the Office. They include:

Stable, accurate, transparent and accountable management of funds:

As the State's banker, the first priority of the Treasurer's Office has remained the safeguarding of State dollars and financial resources while providing core banking, investment, and debt management services. With the continued and sustained economic tepidness, the Treasurer's Office has worked aggressively with the three major credit rating agencies to maintain the State's coveted high credit ratings.

The management of local government funds:

During the fiscal year 2012, the Treasurer's Office managed on average \$3.3 billion, a \$700 million increase over the previous fiscal year, on behalf of local governments, school districts, and other entities. The Office has provided a stable and advantageous return while continuing to provide local government's almost immediate access to their funds. The Office provides training and guidance on an ongoing basis in an effort to help local governments remain financially healthy.

Provide families and students opportunity to attain higher education:

The Future Scholar program operated by the State Treasurer's Office is one of the most recognized, highly rated and successful 529 College Savings Programs in the nation. The number of Future Scholar accounts opened by South Carolina residents increases each year.

The South Carolina Tuition Prepayment Program (SCTPP), which was transferred to the State Treasurer's Office in 2000, continues to operate but remains statutorily closed to new enrollees. Large tuition increases at the State's public colleges and universities have contributed greatly to an unfunded liability for the program. According to the most recent SCTPP actuarial report, expected value of liabilities is \$182 million and the value of assets is \$116.5 million, resulting in a deficiency of \$65.6 million.

The funded ratio is 64% of liabilities. According to the SCTPP's most recent actuarial report, the fund could be depleted by 2018 if tuition inflation continues to outpace investment returns, unless in accordance with state law, action is taken by the Legislature. Each year, the Treasurer advises the Legislature on the status of the SCTPP and provides recommendations regarding remedial actions that will extend the life of the fund.

Strategies for promoting greater transparency, accountability and efficiency:

Efficiency: The Office has a goal to reduce and ultimately end the unnecessary printing and distribution of checks and has to date reduced the number of checks by over 75%, and expects to reduce the number further to more than a 90% reduction by July 1, 2013. Elimination of the requirement to provide printed copies of checks to those who receive their pay electronically saves money and resources in printing and distribution costs. Current and historic payroll information is available to the employee on a secure portal through the South Carolina Information Enterprise System (SCEIS).

The Investments Division continues to reduce costs of print and mail by converting LGIP participants to the Internet Participant Access System (IPAS). Participants receive their monthly reports on-line and are mailed confirmations weekly rather than daily.

Transparency and Accountability: Treasurer Loftis continuously works to promote transparency and accountability to state government. In that spirit, the Treasurer continues to publish his entire work schedule online, posts his economic disclosure forms quarterly on the Office website (www.treasurer.sc.gov), more frequently than required by law, and has vigorously pursued increased oversight of and accountability for the State's Retirement Systems Investment Commission, which is responsible for the investments held in the various pension systems of the State.

The Treasurer frequently advocates for open government in his speeches, media contacts and other communications. The Office has initiated public interest and debate over such issues as the need for more transparency and accountability at the Budget and Control Board, the Retirement Systems Investment Commission and other agencies with a statewide impact.

The Office answered twenty Freedom of Information Act (FOIA) requests with timely and responsive information the groups, citizens, and others that requested the information. The Office charged \$677.50 for searching for and copying of the responsive public records.

2.1. What is your Strategic Planning process, including key participants, and how does it address: (a) your organization's strengths, weaknesses, opportunities, and threats; (b) financial, regulatory, societal, and other potential risks; (c) shifts in technology, and customer preferences; (d) workforce capabilities and needs; (e) organizational continuity in emergencies; (f) your ability to execute the strategic plan?

Led by the Treasurer, the strategic planning process is comprehensive, with involvement and input by senior leadership of the Office. Each Division establishes annual plans and goals that consider and respond to both the Agency needs and requests of customers and stakeholders. The plan includes benchmarks and other measurement criteria to document success.

2.2. How do your strategic objectives address the strategic challenges you identified in your Executive Summary?

Many of the challenges the Office faces are externally driven and therefore require competent response to changing conditions. The Agency monitors trends and capitalizes on external relationships to evaluate alternatives and make informed decisions.

2.3. How do you develop and track action plans that address your key strategic objectives, and how do you allocate resources to ensure the accomplishment of your action plans?

Senior leadership constantly monitors office progress through constant interaction and follow up throughout all levels of the Agency. Following development and implementation of action plans, senior leadership holds a debriefing meeting covering what was successful and what could have been done differently during implementation. Delegating responsibility is a key component, as well as ensuring that staff is properly trained and has resources available to successfully complete assigned action items. All of these components are taken into account when formulating action plans.

2.4. How do you communicate and deploy your strategic objectives, action plans, and related performance measures?

Division directors incorporate the strategic objectives of the Office in their daily operations and goals. Action plans are assigned to specific Divisions and employees as dictated by the objective and circumstances. The Employee Performance Management System (EPMS) is utilized to integrate Agency objectives and promote individual accountability.

2.5. How do you measure progress on your action plans?

See question 2.3.

2.6. How do you evaluate and improve your strategic planning process?

See question 2.3.

2.7. If the Office's strategic plan is available to the public through the Office's internet homepage, please provide a website address for that plan.

The Office of State Treasurer's strategic plan is not presently available on the Agency's website.

Strategic Planning Chart

Program Number and Title	Supported Office Strategic Planning Goals/Objectives	Related FY 11-12 and beyond Key Office Action Plan/Initiative(s) and Timeline for Accomplishing the Plan(s)	Key Results
II Programs and Services (Treasury Management)	1.1 Support Office banking needs	Communicate with agencies about their specific banking needs and through partnering with banking service providers, incorporate new services and technology where available	Pages 34-36
	1.2 Reconcile bank accounts and limit unrecorded deposits	Add sub-accounts for additional agencies, utilize additional features of online banking services, and further automate file transfer and reconciliation to facilitate timely reconciliations	
	1.3 Distribute shared revenue	Utilize and regularly review automated systems to assure compliance with applicable distribution laws	
II Programs and Services (Investments)	2.1 Provide cost-effective, professional portfolio management services	With a highly trained, professional staff and state-of-the-art portfolio management tools, manage fixed income funds internally and obtain the best returns within the prescribed parameters	Pages 36-38
	2.2 Maintain adequate collateral	Utilize automated systems for timely monitoring and adjustment of collateral	

	2.3 Optimize earnings through effective cash management while maintaining adequate liquidity	Utilize state-of-the-art cash management tools and practices. Employ proper cash forecasting models and communication with agencies to predict cash needs and to match investments with those needs	
II Programs and Services (Debt Management)	<p>3.1 Pay all debt accurately and on time</p> <p>3.2 Close all new debt issues by prescribed and agreed upon deadlines</p> <p>3.3 Issue debt at lowest rate possible</p> <p>3.4 Develop debt and finance policies that optimize value to the taxpayer and constituency</p>	<p>Utilize automated system for timely and accurate calculation and execution of debt payments</p> <p>Utilize experienced staff and outside advisors depending on the nature of the issue</p> <p>Maintain high credit rating through careful management of the credit rating relationship, provide advice and guidance to policymakers when appropriate, and maximize exposure of debt offerings</p> <p>Perform impact analyses and special studies as requested or warranted by the circumstances</p>	Page 38-39
II Programs and Services (Unclaimed Property)	<p>4.1 Increase amount of property returned to rightful owners</p> <p>4.2 Promote holder awareness and compliance with unclaimed property requirements</p> <p>4.3 Increase electronic reporting of unclaimed property</p>	<p>Increase public awareness of Program and continue to aggressively seek owners</p> <p>Promote holder awareness through outreach and education efforts as well as holder company examinations</p> <p>Continue to provide downloadable reporting software via the internet</p> <p>Require holder reports be submitted electronically</p>	Pages 39-41

II Programs and Services (College Savings)	<p>5.1 Increase the number of college savings accounts within the programs, particularly among South Carolinians</p> <p>5.2 Expand internet services for Future Scholar, meeting customer expectations and enabling online account access</p> <p>5.3 Expand internet services for SCTPP account owners using online WAVE account services and the SCTPP website</p>	<p>Promote college savings to South Carolinians at all income levels and throughout the State</p> <p>Continue marketing the Future Scholar Plan with the collaboration of the STO and Columbia Management</p> <p>Provide better online access to account holders of Future Scholar accounts</p>	<p>Pages 41-45</p>
II Programs and Services (Local Government Services)	<p>6.1 Provide guidance on reporting of court fines and assessments to local government treasurers</p> <p>6.2 Develop an electronic database of county and municipal audits</p> <p>6.3 Provide continuing education opportunities on services provided to local governments by the State Treasurer's Office</p> <p>6.4 Monitor court fine remittances and local government audits</p>	<p>Conduct annual court fines training for county and municipal treasurers</p> <p>Request all local governments to submit mandated annual audits electronically to reduce the cost of printing and postage and to enhance data management (FY 2011)</p> <p>Continue partnering with the Dept. of Revenue to provide educational seminars for county treasurers through the South Carolina Auditors, Treasurers and Tax Collectors Association (SCATT)</p> <p>Communicate with local governments about delinquent annual audits and monthly court fine remittances. Maintain databases, files and correspondence with local governments on their delinquent status</p>	<p>Page 45</p>

III.3 - Customer Focus**3.1. How do you determine who your customers are and what their key requirements are?**

The Agency's daily work requires regular communication and interaction with our customers and stakeholders. This open and constant communication channel promotes a process of continuing identification and response to their key needs and requirements.

3.2. How do you keep your listening and learning methods current with changing customer/business needs and expectations?

The Office relies on direct customer feedback to improve services to our customers. The STO assists the public on a wide range of topics and strives to resolve matters and respond to requests as expeditiously and thoroughly as possible.

3.3. What are your key customer access mechanisms, and how do these access mechanisms enable customers to seek information, conduct business, and make complaints?

Beside direct communication, the Office continually updates and provides additional information and downloadable documents on the website, thereby reducing costs and response times. Throughout the year, changes are made to the website to make it more informative and customer friendly. Both of the college savings programs have customer call centers, as does the Unclaimed Property Division. Other areas have professional staff available to assist at all times by telephone, email, and personal visits.

Legislative and FOIA inquiries are handled through a dedicated professional staff that coordinates research and provides timely, accurate and transparent information.

3.4. How do you measure customer/stakeholder satisfaction and dissatisfaction, and use this information to improve?

Representatives of the Office make annual presentations to the South Carolina Governmental Finance Officers Association at the Fall and Spring Conferences and use those forums to disseminate information and receive feedback from stakeholders and identify ways the Office can best meet their needs. Staff often present at the South Carolina Association of Auditors, Treasurers and Tax Collectors meetings and offer training for local governments on such topics as court fines and cash investments. Feedback is generally solicited and relayed to the Office, with changes implemented accordingly. Management and staff who interact directly with customers and stakeholders build strong, professional relationships and also help measure customer/stakeholder satisfaction.

3.5. How do you use information and feedback from customers/stakeholders to keep services or programs relevant and provide for continuous improvement?

Two of our Divisions, the Unclaimed Property Program and the College Savings Plans, involve direct communication and interaction with the general public. Promotion, education, customer expectations and customer-oriented delivery systems are the driving forces of these interactions. Internet access to data and Office services continues to be the focus of our outreach efforts. Public feedback from both our call centers as well as staff who field constituent calls notify Division directors of any critiques or suggestions they receive.

3.6. How do you build positive relationships with customers and stakeholders to meet and exceed their expectations? Indicate any key distinctions between different customer and stakeholder groups?

See question 3.4.

III.4 - Measurement, Analysis, And Knowledge Management

4.1. How do you decide which operations, processes and systems to measure for tracking financial and operational performance, including progress relative to strategic objectives and action plans?

The Office, with general counsel taking the lead, reviews all statutory requirements applicable to the Office of State Treasurer to ensure compliance with mandates from the General Assembly. Performance measures are incorporated into all operations of the Office. The measures used are selected by senior management in an effort to:

- Monitor compliance with directives, goals, and objectives;
- Measure success of transparency, accountability and efficiency measures implemented;
- Measure Office performance against industry benchmarks.

An inventory of key performance indicators is maintained for measures used in the areas of compliance, mission accomplishment, and customer focus. Comparative data and information is selected and used based on research for best practices and benchmarks relevant to the mission of the Office. Participation in national organizations such as the National Association of State Auditors, Comptrollers and Treasurers (NASACT), the National Association of State Treasurers (NAST), the College Savings Plan Network (CSPN), and other professional organizations in banking, cash management, investments, unclaimed property, and college savings plans provides exposure to comparative data and best practices, many of which have been adopted. In addition, monthly reports from all Divisions track operational and financial performance. Separate monthly reports track expenditures and the Office's budget.

4.2. How do you select, collect, align, and integrate data/information for analysis to provide effective support for decision making and innovation throughout your organization?

Recognizing the importance of our key supplier relationships, the State Treasurer has built dedicated support systems for each of these types of relationships. Through regular meetings with key stakeholders and agencies requesting new types of services, the Office has forged significant partnerships that afford us the opportunity and ability to leverage industry experience and operational knowledge, leading to solutions that achieve cost savings, efficiency, accuracy and reliability.

4.3. What are your key measures, how do you review them, and how do you keep them current with organizational service needs and directions?

Monthly progress reports from all Divisions track operational and financial performance. Separate monthly reports track expenditures and the Office's budget. Objectives for investment of General and Other Funds are developed in conjunction with the Quarterly Investment Meetings with the State's investment advisor. Monthly performance reports provided by the custodial bank and investment advisor are reviewed by staff and assure the performance requirements are reviewed regularly and processes are adjusted as market conditions fluctuate. The program manager for the college savings plans also provides monthly data to the Office to ensure proper tracking of goals and objectives. Other key measures include cost savings and avoidance, efforts promoting transparency and accountability, timeliness and efficiency with which we respond to requests and provide information, customer and stakeholder satisfaction and employee involvement.

4.4. How do you select and use key comparative data and information to support operational and strategic decision-making and innovation?

See question 4.1.

4.5. How do you ensure data integrity, reliability, timeliness, accuracy, security and availability for decision-making?

Accuracy of data produced by the Office is ensured through reconciliation and confirmation with external sources. Processes include among others:

- Statewide accounting data is reconciled daily to the Office of the Comptroller General.
- Banking data is confirmed with the depository bank, custodian of investments, and the counter-party to transactions.
- The status of investment portfolios and performance results is measured by at least two external sources in addition to the internal audit process: the custodial bank and the independent investment advisor.
- Local Government Investment Pool transactions are confirmed with Pool participants through daily confirmations of transactions and with monthly statements.

- The Debt Management System (DMS) provides a system of controls and automation for the Debt Management Division. This system provides mechanisms for record keeping and reporting, and provides automation for electronic debt payment through the Automated Clearing House to the State's paying agents. It also provides functionality for tracking Office payments for authorized capital projects to ensure timely and accurate payments for projects approved by the Joint Bond Review Committee, the Budget and Control Board and as appropriated by the General Assembly.
- Information on debt issues and payments is monitored and confirmed by external parties, including bond counsel, financial advisors, independent paying agents, bond holders, and the institutions served.
- Internal administrative data such as budget status, procurement information, and payroll transactions are confirmed with statewide reporting systems and subjected to routine audit.
- Monthly reports are also required of all Divisions, as well as partners and other entities with which the Office partners that track operational and financial performance as well as monitor expenditures.

Office data is subjected to review directly by at least eight areas of independence including:

- The audit process in connection with publication of the statewide Comprehensive Annual Financial Report (CAFR) for cash, investments, debt, and data processing control;
- Agreed Upon Procedures engagement;
- Independent GAAP audit of the Local Government Investment Pool;
- Independent GAAP audit of the Tobacco Settlement Revenue Management Authority;
- Independent GAAP audit of the South Carolina Resources Authority;
- Follow-up audits on Court Fine remittances;
- Statewide single audit team for compliance with CMLA; and
- The independent GAAS audit of the Office.

4.6. How do you translate organizational performance review findings into priorities for continuous improvement?

Senior management meets weekly with Division heads in an effort to ensure open lines of communication. During these meetings, feedback from various sources regarding organizational performance is discussed. Any changes Division managers implement as a result of feedback from reviewing authorities are reported and discussed during these meetings as well.

4.7. How do you collect, transfer, and maintain organizational and employee workforce knowledge (knowledge assets)? How do you identify, share and implement best practices, as appropriate?

Cross-training and succession planning are encouraged and implemented by senior management. The Office also maintains policies and procedures manuals for each division.

III. 5 - Workforce Focus

5.1. How does management organize and measure work to enable your workforce to: 1) develop to their full potential, aligned with the organization's objectives, strategies, and action plans; and 2) promote cooperation, initiative, empowerment, teamwork, innovation, and your organizational culture?

The State Treasurer's Office has a competent and dedicated staff that is natively service-oriented and responsive. Management encourages and promotes cooperation and teamwork through cross training and professional development. Managers are encouraged to communicate frequently about Agency and Divisional goals and objectives, and the open-door policy espoused by management promotes constant communication between management and staff to ensure staff has the proper training, instruction, and encouragement to achieve their maximum potential.

5.2. How do you achieve effective communication and knowledge/skill/best practice sharing across departments, jobs, and locations? Give examples.

Office and departmental goals and objectives are discussed at regular staff meetings. Knowledge transfer is promoted through intra and interdepartmental cross-training and through maintaining desk reference manuals to ensure best practice continuity.

5.3. How does management recruit, hire, place, and retain new employees? Describe any barriers that you may encounter.

Through short and long-term planning, management evaluates the need to fill positions that generally become vacant through attrition. Once a need is determined, vacant positions are posted through the State's Office of Human Resources' (OHR) State Jobs Website, our primary

recruiting tool. The system allows for the application of specific job training questions and occupational work history filters, which narrows applicant pools to the most qualified candidates. Selected applicants participate in an objective interview process. Once successful candidates are hired, in-house orientations and continuous training and professional development opportunities are provided to ensure employee success.

5.4. How do you assess your workforce capability and capacity needs, including skills, competencies, and staffing levels?

Division directors and executive management routinely monitor the quality and quantity of staff workloads as well as the status of completion on short and long-term projects to determine staffing levels and competencies. Managers and employees work together to identify resource requirements needed to accomplish present and future goals and advise executive management.

5.5. How does your workforce performance management system, including feedback to and from individual members of the workforce, support high performance work and contribute to the achievement of your action plans?

Senior leadership actively seeks employee input and participation to evaluate and improve processes and to promote initiative and teamwork. Measurable and objective success criteria promote high performance ensuring that Office goals and objectives are met. The EPMS system used to evaluate employee performance also assists in maintaining high achievement levels and efficiencies in workflow.

5.6. How does your development and learning system for leaders address the following?

- A. Development of personal leadership attributes;**
- B. Development of organizational knowledge;**
- C. Ethical practices;**
- D. Your core competencies, strategic challenges, and accomplishment of action plans?**

Management positions in the Office require specific qualifications and professional experiences that relate to the daily functions of the Office. Leaders are encouraged to participate in professional development and personal growth training opportunities. At weekly meetings, senior management share ideas and communicate information across divisional lines.

5.7. How do you identify and address key developmental training needs for your workforce, including job skills training, performance excellence training, diversity training, management/leadership development, new employee orientation, and safety training?

Managers and employees work together to identify areas where additional job skills and training are needed. New employees are brought into an environment of peers willing to help them adapt to their new responsibilities.

5.8. How do you encourage on the job use of new knowledge and skills?

Implementing new technologies and improving daily processes often necessitate the development and use of new job knowledge and skills in the performance of day-to-day job functions. Transparency, accountability and efficiency are strident goals of the Office.

For example, the Debt Management Division continues to use internet-based technology in advertising bond sales and accepting bids. While this process saves printing and postage costs, it more significantly broadens the universe of potential bidders on the State's debt offerings. The Investments Division allows account holders to view their accounts online.

5.9. How does employee training contribute to the achievement of your action plans?

Employee professional development and cross training ensures a well-trained professional workforce that continues to meet the Office's mission and provide exceptional customer service. It also enables the Office to shift responsibilities among staff members so that productivity does not stop in the event of employee absence.

5.10. How do you evaluate the effectiveness of your workforce and leader training and development systems?

The STO prides itself on the low turnover rate of employees. Our goal is to maintain a well-trained workforce prepared to progress in their careers as new opportunities arise through cross-training and employee initiative.

5.11. How do you motivate your employees to develop and utilize their full potential?

Recognition of staff for their accomplishments continues to be both an honor and an important responsibility of management. Division directors and Deputy State Treasurers routinely recognize staff for their efforts in an ongoing effort to motivate the workforce. Employees are honored with and recognized at the annual Employees' Appreciation Luncheon. Employees are encouraged to think of process improvements and challenge the status quo.

5.12. What formal and/or informal assessment methods and measures do you use to obtain information on workforce well-being, satisfaction, and motivation? How do you use other measures such as employee retention and grievances?

Employee well-being and satisfaction are informally measured through daily interactions, discussions and division meetings. Employee motivation is more formally assessed through the EPMA process. Exit interviews with employees leaving the Office are conducted to receive feedback in identifying and evaluating ways for improvement. The Office also monitors turnover, absenteeism and grievances. Senior management, including the Treasurer, directly interacts with staff on both personal and professional levels.

5.13. How do you manage effective career progression and effective succession planning for your entire workforce throughout the organization?

The Office continues to review and update its succession plan by identifying those employees in critical needs areas who will be eligible to retire in the next 3 to 5 years. Ongoing discussions

with Division Directors to determine the needs of each Division, to identify individuals with potential to step into leadership roles, and to develop formal succession plans to promote an orderly transition whenever that time comes.

5.14. How do you maintain a safe, secure, and healthy work environment? (Include your workplace preparedness for emergencies and disasters)

The Office continues its commitment to the workforce by promoting employee well-being in a safe, secure and healthy work environment. Employee participation in benefits fairs, health screenings, mammograms and flu shots is encouraged and supported to ensure the health of employees. Routine reviews of office space and equipment are conducted to ensure the comfort and safety of employees. Managers and employees are encouraged to report any safety or health issues immediately. The Agency also maintains an Emergency Operations Plan in the event of emergencies, disasters, or evacuation.

III.6 - Process Management

6.1. How do you determine, and what are your organization's core competencies, and how do they relate to your mission, competitive environment, and action plans?

See Section 2, Figure II.1.

6.2. How do you determine, and what are your key work processes that produce, create or add value for your customers and your organization and how do they relate to your core competencies? How do you ensure that these processes are used?

Key processes are statewide functions mandated by the Legislature, including investments, banking and debt service, college savings plans, unclaimed property and treasury management. These processes are integral to safeguarding our State's financial resources and maximizing returns on our investments. A Performance Audit identified both strengths in work processes and opportunities for improvement which continue to be implemented throughout the STO.

6.3 How do you incorporate organizational knowledge, new technology, cost controls, and other efficiency and effectiveness factors, such as cycle time, into process design and delivery?

Institutional knowledge of staff at all levels drives process design and delivery. Constant monitoring and refinement of business processes ensures that best practices are being employed.

6.4. How does your day-to-day operation of these processes ensure meeting key performance requirements?

See question 6.3.

6.5. How do you systematically evaluate and improve your key product and service related work processes?

Customer and stakeholder feedback are integral components and drive key product and service-related work processes. Staff members are engaged and encouraged to participate in business solutions. Weekly senior leadership meetings provide a forum to share challenges, concerns and resolutions.

6.6. What are your key support processes, and how do you evaluate, improve and update these processes to achieve better performance?

Key support processes include internal services provided by our administrative and information technology divisions. Division managers meet routinely to evaluate needs, progress, and other developments that affect the divisions utilizing these support services.

6.7. How does your organization determine the resources needed to meet current and projected budget and financial obligations?

Senior leadership reviews the various needs of the Office taking into account the mission, customer and stakeholder relationships, and desired outcomes. Weekly senior leadership meetings as well as budget reviews ensure that the Office's limited resources are being deployed efficiently and at their highest and best use. Division Directors also submit monthly activity reports to senior leadership in an effort to monitor progress and make adjustments if necessary.

III.7 Results

7.1 - Treasury Management

Program Goals:

- To streamline and automate banking operations to enhance efficiency.
- To further increase electronic payments to vendors and employees.
- To integrate SCEIS Treasury module into the Office's Financial Management System.
- To reduce banking costs.

Program Objectives and Key Results:

1. Increase the number of payments processed electronically.

1.1 Implementation of an electronic payables program to offer an additional method of payment to vendors. This process expedited vendor payments and reduced processing costs to the State.

Figure 7.1.1 - Comparison of Disbursements by Type

	2008-09		2009-10		2010-11		2011-12		2012-13	
	Number	%	Number	%	Number	%	Number	%	Number	%
Disbursements

Electronic Payments with Paper Confirmation	2,010,973	46%	801,099	19%	175,386	4%	29,582	1%	7,744	0%
Electronic Payments with Electronic Confirmation			1,400,412	33%	2,379,680	56%	2,857,616	68%	2,841,270	69%
Total Disbursements	4,370,694	100%	4,209,019	100%	4,231,099	100%	4,185,229	100%	4,102,565	100%
FTE's in Process Area	4.00		3.00		3.00		3.00		3.00	

2. Increase the number of agencies using the electronic deposit system, focusing on the high-volume deposit agencies.

Figure 7.1.2 - Comparison of Receipts by Type

	2008-09		2009-10		2010-11		2011-12		2012-13	
	Number	%	Number	%	Number	%	Number	%	Number	%
Receipts:										
Manual Deposits	34,733	18%	20,406	11%	16,336	9%	17,072	9%	17,141	9%
Automated Deposits	103,472	54%	117,862	63%	123,305	67%	121,863	66%	124,124	67%
Credit card deposits	46,979	25%	46,636	25%	44,431	24%	45,324	24%	42,716	23%
ACH Deposits	5,330	3%	2,496	1%	1,019	1%	877	0%	555	0%
Total Deposits	190,514	100%	187,400	100%	185,091	100%	185,136	100%	184,536	100%
FTE's in Process Area	4.00		3.75		3.75		3.75		3.75	

2.1 Automated deposits and credit card deposits both utilize the electronic deposit system. These electronic postings accounted for 91% of all deposits processed through the Office. Deposits continued to be processed within the one-day requirement, utilizing enhancements already in place. By the end of the year, sixty-nine State agencies had converted from their legacy accounting systems to SCEIS and began submitting deposits to the STO through SCEIS. As further implementation continues, the number of manual deposits should decrease.

3. Work with banks to analyze Office use and needs of available banking services.

3.1 The STO continues to meet with representatives from different banks on a regular basis to discuss current banking practices and new services available on the market. These meetings provide insight on possible enhancements and cost-saving practices to explore. This also presents an opportunity to discuss first-hand with bank vendor issues that may need attention on current services already being utilized by the STO.

3.2 The STO continues to evaluate and reduce our banking service fees.

Programs for debit pay cards for payroll and state benefits have been initiated to reduce costs for processing these payments. The STO continues to add vendors to the credit card contingent payment method.

7.2 - Investments

Program Goals:

- To manage all investment programs in accordance with S. C. Code Section 11-9-660 and other statutes of the South Carolina Code of Laws, 1976, as amended, as applicable, in an effective manner while:
 - Preserving capital;
 - Maintaining liquidity; and
 - Obtaining the best return within appropriate risk parameters.
- To invest all State funds pursuant to statutory authority and provide custodial services of the South Carolina Retirement Systems portfolios, which are structured to meet the long-term nature of pension obligations, in an effective manner.
- Transition from the legacy Investment Management System to a SCEIS compatible system. For the upcoming fiscal year, the goal is to evaluate possible replacements and begin the planning and implementation process.

Objectives and Key Results for General and Other Funds:

1. **Obtain the best return within prescribed parameters on a portfolio basis, meet liquidity needs, and meet or exceed the applicable benchmarks while preserving capital.**

Figure 7.2.1 - General Funds Rate of Return compared to Benchmarks (Figure)

- 1.1. The portfolio outperformed the benchmark of 90-day Treasury Bills by .98% and the Federal Funds benchmark by .95%.
- 1.2. The State's Local Government Investment Pool (LGIP) earned an average rate of .24% compared to the average benchmark rate of .04% (90-day T-Bill). LGIP balances continued to increase throughout the last fiscal year.

2. Provide professional investment services for all funds under management through efficient utilization of available resources.

- 2.1. The STO provided investment services at a cost of less than .014%, compared to an industry average of .10%. (Source: Jamison Eaton & Wood, Investment Advisors)
- 2.2. An increasing amount of LGIP participants continue to utilize the secure online system for managing accounts and conducting transactions.
- 2.3. In spite of very low demand for CD deposits by banks, the BidSC Program CD auctions resulted in increased earnings for the State of \$38,526.

3. Meet or exceed the General Fund budget projection for investment earnings for the year.

- 3.1. Earnings on General Fund investments were \$26,369,839, slightly below the investment earnings projection of \$27 million by \$630,161 due to sustained and historically low interest rates.

Figure 7.2.2 - General and Other Funds Managed

	2009-10	2010-2011	2011-2012	2012-2013
Workload - State and Local				
General funds managed (average)	\$1,412,254,313	\$1,196,726,246	\$1,196,726,246	\$2,127,666,785
Restricted funds managed (average)	\$4,615,146,429	\$5,130,595,795	\$5,130,595,795	\$5,911,700,142

7.3 - Debt Management

Program Goals:

- Manage all debt issues for the State, its agencies and institutions.
- Optimize debt structure and assure timely debt payments.
- Coordinate communications with rating agencies to maximize the State's credit rating.

Program Objectives and Key Results:

1. Analyze the markets and structure the debt to assure the lowest rate of interest is paid.

1.1. The State did not issue general obligation debt in the previous fiscal year; accordingly, the chart and statistics below compare bond yields for fiscal year 2011-2012. On a composite basis, general obligation debt was issued at yields at or favorable to the Municipal Market Data (MMD) yields for comparably secured MMD-AAA securities.

1.2. For the fiscal year 2011-2012, the overall yield on general obligation debt issued was 1.25%, as compared to the MMD-AAA and MMD-AA yields for the same period at 1.26% and 1.49%, respectively. **The State's total interest cost of \$19.1 million for the \$231.34 million in general obligation debt issued during fiscal year 2011-2012 was favorable to the prevailing market by \$213,000.**

Graph 7.3.1 Comparison of bond yields: fiscal year 2011-2012.

2. Provide State institutions and agencies with guidance in effectively managing their debt issuances and programs.

2.1. The Division assisted 9 institutions and agencies in financing \$1.029 billion through 12 revenue bond and master lease transactions during fiscal year 2012-2013.

The Division refinanced portions of State debt to achieve approximately \$164 million in savings during fiscal year 2012-2013.

7.4 - Unclaimed Property

Program Goals:

- Increase holder companies' compliance with reporting.
- Increase citizens' awareness of unclaimed property thereby increasing the likelihood of funds being returned to rightful owners.
- Increase efficiency through use of technology.

Program Objectives and Key Results:

1. Increase compliance with the Unclaimed Property Act by increasing the number of holders filing annual reports.

1.1. Remitted cash by holder companies increased by 42.8% as compared to the amount remitted in FY 2011-2012. Remittance of stock shares decreased 25% for the fiscal year.

- 1.2. Paperless reporting procedures were enhanced making reporting easier for businesses. As a result, approximately 95% of holder reports were filed electronically.

Figure 7.4.1 Amount reported as unclaimed property

2. Increase claims paid to the rightful owners by increasing public awareness of the Program and through aggressive outreach programs.

- 2.1. Increased the probability of money being claimed by rightful owners through providing information to television stations and newspapers across the State to assist in the location of owners and to generally promote the Program.
- 2.2. Program was promoted through numerous speaking engagements at which lists of owners were distributed and through outreach programs such as on-air television interviews, phone banks and Hometown Tours during which potential owners could locate their funds.

The total dollar amount of claims paid in FY 2012-13 increased by 65% and there was an 82% increase in the total number of accounts paid as compared to the previous fiscal year. Therefore, substantially more owners of unclaimed property were reunited with their money.

3. Increase and enhance Program efficiencies through the use of technology.

Figure 7.4.2 – Reports Received Electronically

- 3.1. Provide and promote services with an emphasis on the internet thus making it easier for the public to submit claims while keeping the cost of processing the claims down.
- 3.2. The Office enhanced the paperless reporting procedure which allows holders to file their reports via e-mail and remit the funds electronically. Paperless reporting reduces the amount of paper staff has to handle, process, scan and shred.
- 3.3. All Program holder reports and paid claims files are routinely scanned, thereby eliminating the need to store vast amounts of paper and allowing for staff to quickly locate files.

7.5 - College Savings Plans

South Carolina Future Scholar College Investment Program And Tuition Prepayment Program

Program Goals:

- Increase overall account openings in the Future Scholar 529 Plan.

- Provide a top quality 529 College Savings Plan Investment Program to the residents of South Carolina and to residents of other States who may benefit from the advantages of investing in the Future Scholar Plan.
- Continue to operate one of the Nation's most highly rated 529 College Savings Programs **without the use of any general funds or taxpayer money.**
- Continue to run the Tuition Prepayment Program in an efficient manner as well as formulate a plan to address the unfunded liability associated with the program.

Program Objectives and Key Results:

1. Increase participation in the Future Scholar Plan, especially among South Carolinians.

Figure 7.5.1 – Future Scholar Accounts

- 1.1. Active Future Scholar accounts increased by 7.13% in the last fiscal year. Active accounts grew from 92,700 to 99,317.
- 1.2. The ratio of participation in Future Scholar by South Carolina residents increased 2% from 66% to 68% of total accounts.
- 1.3. Future Scholar initiated three statewide advertising and grassroots promotional campaigns to encourage families to save for college.
- 1.4. Future Scholar advertising campaigns targeted South Carolina families with children ranging from newborns to high school age who might benefit from the investment and tax advantages of the Plan.

Figure 7.5.2 – Future Scholar Accounts (In-State, Out-of-State)

2. Provide a top-grade 529 Investment Program.

- 2.1 Since 2008, The Future Scholar customer service call center responsible for fielding telephone inquiries for the Future Scholar 529 College Savings Plan has performed within the competitive NQR benchmark for service quality delivery. Beginning in 2009, Columbia achieved NQR's 5-Star Designation for superior customer service. NQR is a third-party vendor responsible for rating the quality of shareholder calls and providing benchmarking against other firms in the financial industry.
- 2.2 Future Scholar's Direct Program (for South Carolina residents) has a 5.0 out of 5.0 rating at SavingForCollege.com. (Ratings are based on a program's flexibility, investment options, economic benefits, and add-on incentives).
- 2.3 Future Scholar is ranked among the top 529 Plans for performance for Direct Sold Plans by SavingForCollege.com. (Ratings are updated on a quarterly basis).

3. Enhance services available through the Internet making it easier for the public to submit applications, make account changes, and utilize the benefits of the Plan.

Future Scholar Plan

- Future Scholar continues to promote the use and efficiency of its web-based customer service feature through Future Scholar's Online Account Access and Online Application to increase customer service capabilities and satisfaction.
 - Opened 12,396 accounts online since the service launched in September 2009.
 - The online application has simplified the account opening process and provides a great way to promote the ease of opening a plan to constituents.

1.2.2 Maintain low fees for Future Scholar Direct Plan (for SC residents).

- The Office announced the selection of Columbia Management, through a competitive bidding process, for a new contract for program management services for the Future Scholar Plan which will result in enhanced plan options and lower fees for account owners.
 - The enhanced Future Scholar Plan has resulted in a dramatic reduction in expenses, making Future Scholar the one of the lowest cost direct plan in the country.

Tuition Prepayment Program

- While new enrollment in the Tuition Prepayment Plan remains closed, the Office strives to continue to serve current clients with the best customer service.
- The Office maintained the percentage of SCTPP contract holders making monthly payments by automatic draft at 47.84% as part of a continuing effort to reduce bank service charges and assure payments are made in accordance with the contracts.
- Currently, the expected value of liabilities is \$182,060,901 and the value of assets is \$116,525,792 for a difference of \$65,535,109. The funded ratio is 64% of

liabilities. For comparison purposes, in 2012 the deficit was \$35,777,760 and the funded ratio was 77.4%.

- According to the SCTPP's most recent actuarial report, the fund could run out of money by 2018 if no action is taken by the Legislature and if tuition inflation continues to outpace investment returns. Per State law, the Legislature must decide what will be done regarding the actuarial deficit of the SCTPP.
- Each year, the Office of State Treasurer advises the Legislature on the financial status of the SCTPP and provides recommendations regarding remedial actions that will extend the life of the fund.

7.6 – Local Government Services

Program Goals, Objectives & Key Results

- Develop a master database to track and monitor delinquent local governments' court fine remittances and annual audit submissions to the STO.
- Communicate with local governments regarding statutory requirements for court fine remittances and annual audit submissions to the STO.
- Identify and eliminate fraud, waste, and abuse in local governments.
- Encourage and increase transparency and accountability in the management of municipal and county government finance.
